Dear Sir,

I thank you for your favor of the 28th. and note your remarks re. Egyptian coins. I am forwarding the coins herewith and would greatly esteem your opinion upon them. I may say that I procured none of them by purchase. The smallest are I dug up at Pithom (Per Tum) together with various other articles. The remainder I dug up at Canopus near to the ruins of the Temple of Serapis and are very probably from the Graeco-Roman period and minted at Alexandria. Two of these last are in surprisingly excellent condition.

I Am, Sir, Yours Faithfully
John. W. Turner.

Dear Sir:

We have looked over your coins and attributed them. From a numismatic point of view they have no value, none of them being rare and none of them being in sufficiently good condition to interest collectors.

Very truly yours,

Curator.
